Contents Volume 55, 1993

Research Papers

Basaltic magma reservoirs: factors controlling their rupture characteristics and evolution
E.A. Parfitt and L. Wilson (Lancaster, UK), and J.W. Head III (Providence, RI, USA) 1
An experimental study on the effects of phenocrysts on convection in magmas
T. Koyaguchi (Tokyo, Japan), M.A. Hallworth and H.E. Huppert (Cambridge, UK) 15
Excitation mechanism of large-amplitude volcanic tremor associated with the 1989 Ito-oki submarine eruption, central Japan
M. Ukawa (Ibaraki, Japan) 33
Random patterns of occurrence of explosive eruptions at Colima Volcano, Mexico
S.D.I. Cruz-Reyna (México D.F., Mexico) 51
Volcanic dust in the stratosphere between 34 and 36 km altitude during May, 1985
F.J.M. Rietmeijer (Albuquerque, NM, USA) 69
Origin of the giant eruption cloud of Pinatubo, June 15, 1991
T. Koyaguchi and M. Tokuno (Tokyo, Japan) 85
Thermal distributions at fumarole fields: implications for infrared remote sensing of active volcanoes
C. Oppenheimer, D.A. Rothery and P.W. Francis (Milton Keynes, UK) 97
Infrared surveillance of crater lakes using satellite data
C. Oppenheimer (Milton Keynes, UK) 117
P-type and S-type pahoehoe: a study of vesicle distribution patterns in Hawaiian lava flows
R.A. Wilmoth and G.P.L. Walker (Honolulu, HI, USA) 129
High-magnesium primary magmas from Haleakala Volcano, east Maui, Hawaii: petrography, nickel, and major-element constraints
C.-Y. Chen (Urbana, IL, USA) 143
Geochemical studies of Tahiti, Teahitia and Mehetia, Society Island Chain
Q.C. Cheng, J.D. Macdougall and G.W. Lugmair (La Jolla, CA, USA).. 155Factors controlling the geochemical evolution of fumarolic encrustations, Valley of Ten Thousand Smokes, Alaska
L.G. Kodosky (Fairbanks, AK, USA) and T.E.C. Keith (Anchorage, AK, USA) 185
Replenishment and crystallization in epicontinental silicic magma chambers: evidence from the Bandelier magmatic system
J. Stix and M.P. Gorton (Montréal, Qué., Canada) 201
Oblique synoptic images, produced from digital data, display strong evidence of a "new" caldera in southwestern Guatemala
W. Duffield (Flagstaff, AZ, USA), G. Heiken (Los Alamos, NM, USA), D. Foley (Tacoma, WA, USA) and A. McEwen (Flagstaff, AZ, USA) 217
Giant tuff cone and 12-km-wide associated caldera at Ambrym Volcano (Vanuatu, New Hebrides Arc)
C. Robin, J.-P. Eissen and M. Monzier (Noumea, New Caledonia) 225
Mehetia Island, South Pacific: geology and petrology of the emerged part of the Society hot spot
N. Binard (Plouzané, France), R.C. Maury (Brest, France), G. Guille (Bruyères-le-Châtel, France), J. Talandier (Tahiti, Polynésie Française), P.Y. Gillot (Gif-sur-Yvette, France) and J. Cotten (Brest, France) 239
Variation on a 36-Ma-old theme: length, intensity and rhythm of volcanism. A record from the Hocheifel (Germany)
D. Müller-Sohnius (München, Germany) 261
The origin of Mount St. Helens andesites
D.R. Smith (San Antonio, TX, USA) and W.P. Leeman (Houston, TX, USA) 271
Volcanological and petrological evolution of Volcan Tata Sabaya, SW Bolivia
S.L. de Silva (Terre Haute, IN, USA), J.P. Davidson (Los Angeles, CA, USA), I.W. Croudace (Southampton, UK) and A. Escobar (La Paz, Bolivia) 305
Thermal and crustal structure of the Aso volcano and surrounding regions constrained by gravity and magnetic data, Japan
Y. Okubo (Tsukuba, Japan) and A. Shibuya (Tokyo, Japan) 337
Editorial Note 351
